

The list

“A grape’s taste will change depending on the terrain, climate and where it’s grown, which makes it the most interesting fruit of all. Every time I open a bottle, I like to smell the wine and think about the journey and hard work that has been put into making the wine.

The list is a reflection of the diversity of grapes, regions and producers that showcase the best of the wines.”

“The Coravin™ System uses technology that keeps the cork in the bottle, where it’s been since the bottle was sealed. Pour the glasses whenever you like, and know that instead of oxidizing, the remaining wine will continue to age naturally”
